

Alex Chen

Portland, OR · alex.chen@email.example · linkedin.com/in/alexchen-dev · github.com/alexchen-dev

Summary

Full-stack software engineer with 4 years of experience building customer-facing web applications. Comfortable owning features end-to-end from API design through React UI. Looking for mid-level roles on product engineering teams.

Skills

Languages: Python, TypeScript, JavaScript, SQL, HTML/CSS

Frameworks: React, FastAPI, Node.js, PostgreSQL

Tools: Git, Docker, GitHub Actions, Jest, Pytest, Figma (handoff)

Cloud: AWS (ECS, S3, RDS), basic Terraform

Work Experience

Software Engineer - BrightLedger (Fintech SaaS)

Portland, OR · Jan 2022 - Present

- Built invoice reconciliation dashboards in React and TypeScript used by 2,400 SMB customers.
- Designed REST APIs in FastAPI for payment status webhooks; reduced duplicate charge incidents by 18%.
- Added PostgreSQL query indexes and pagination that cut average report load time from 4.2s to 900ms.
- Participated in on-call rotation (1 week per month); documented runbooks for three common alert types.
- Collaborated with product and design in two-week sprints; shipped 14 customer-facing features in 2024.

Junior Software Engineer - Cascade Commerce

Remote · Jun 2020 - Dec 2021

- Maintained internal admin tools in React for catalog and inventory teams.
- Wrote Python scripts to migrate 120k product SKUs from legacy CSV exports into PostgreSQL.
- Fixed accessibility issues (WCAG 2.1 AA) on checkout flow; passed third-party audit with zero blockers.
- Pair-programmed with senior engineers on authentication refactor (JWT to session cookies).

Software Engineering Intern - Northwind Analytics

Seattle, WA · Jun 2019 - Aug 2019

- Implemented CSV upload validation and error reporting for a marketing analytics prototype.
 - Wrote unit tests in Pytest; increased backend coverage on upload module from 41% to 78%.
-

Projects

****Neighborhood Pantry**** - Open-source community food-share map (React, Supabase, Mapbox)

- Side project with 180 GitHub stars; handles geospatial search and volunteer signup flows.
-

Education

****B.S. Computer Science**** - Oregon State University · 2020

- Relevant coursework: Data Structures, Web Development, Databases, Software Engineering
